### **DETAILED ACTION**

1. Applicant's amendments filed 5/10/10 overcome the rejections set forth in the office action mailed 12/8/09, except for the rejection over Kaneko in view of Yagishita, which is maintained below.

#### ***Continued Examination Under 37 CFR 1.114***

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/10/10 has been entered.

#### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-2, 5, 7, 10, and 12-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The word "etc" in claims 1, 13, and their dependent claims render the claims indefinite because the claims include

Art Unit: 1797

elements not actually disclosed (those encompassed by "etc"), thereby rendering the scope of the claims unascertainable. See MPEP § 2173.05(d).

***Claim Rejections - 35 USC § 103***

5. Claims 1-2, 5, 7, 10, and 12-14 rejected under 35 U.S.C. 103(a) as being unpatentable over Kaneko in view of Yagishita.

This rejection is adequately set forth in paragraph 5 of the the office action mailed 12/8/09, which is incorporated here by reference. Amended claims 1 and 13 include the limitations of previous claim 11.

***Response to Arguments***

6. Applicant's arguments regarding Kaneko and Yagishita have been fully considered but they are not persuasive. Applicant argues one of ordinary skill in the art would interpret one of the additives of Kaneko to be a viscosity modifier and therefore would not further include the viscosity modifier of Yagishita. Applicant does not provide support for this assertion, and Kaneko does not provide any indication that the poly(alkylene) glycol is a viscosity modifier. As discussed in the previous office action, Kaneko discloses that the refrigerator oil compositions can further comprise known additives; Yagishita teaches that the ethylene-alphaolefin polymers are useful viscosity index improvers for refrigerator oils. One of ordinary skill in the art therefore would have had an reasonable expectation of success in including the polymers of Yagishita in the composition of Kaneko.
